STYLE 154S

- Temperature: To 500°F / 260°C
- pH Range: 0-14
- Speed: 1500 FPM
- Pressure: 300 PSI / 20 Bar
- Construction: Interlock Braid

Description: Soft resilient PTFE packing treated with an inert lubricant. Excellent chemical resistance.

Equipment: Valves, rotating and reciprocating equipment, and expansion joints

Applications: Chemicals, Solvents, Corrosives, Gases, Water, Steam, Ammonia, Air, Oils, Paper Stock and Liquor

Industries: Food & Beverage, Pulp & Paper, General industry, Chemical and Pharmaceutical
